

Sat Oct 13, 2018 **50 miles**

I ran and walked the hilly Canandaigua 50 mile. It was rather cool in the mid 40's, rainy and windy. Lots of time the wind was in our faces. I had about 2700 calories in my breakfast cereal, banana, energy bar, Gatorade and defizzed coke. I wanted to run under 10 hours which is 12:00/mile. At 25 miles my average pace was 11:40/mile. I realized I could not hold that pace so I started walking a lot more and enjoying the run a lot more too. My final time was 10:52:39. The race director, Gil Robs and his crew were very friendly and the run was well organized with course marshals at major intersections and clear course markings everywhere else. There were lots of people at the 12 aid stations helping the runners and cheering us on. It was a great run on my 76th birthday.

Sun Oct 14, 2018 **no running**

Mon Oct 15, 2018 **no running**

Tues Oct 16, 2018 **no running**

I pushed a lawnmower for an hour.

Fri Oct 19, 2018 **no running**

55 miles in the last week

Sat Oct 20, 2018 **31.5 miles**

I ran in the Erie Personal Endurance Classic. Runners are timed while running as many 1.05 mile loops as they want. I ran 30 loops for a total of 31.5 miles. My time and overall mile pace were 6:05:08 and 11:35/mile. I passed the 50K point in about 5:59 and reached my goal of running 50K in under 6 hour. I ate and drank plenty of calories. I drank about 90 ounces of Gatorade and defizzed Coke which is almost 3 ounces per mile. This may not have been quite enough even though the day was cool. The race director Jim Lang was very friendly and helpful. Mike Viera helped me keep track of the number of loops I had completed while I was running. Thank you Mike.

Sun Oct 21, 2018 **no running**

Mon Oct 22, 2018 **4 miles**

I ran 1.75 miles downhill averaging 11:44/mile and then rested a half hour. I ran 1.25 miles **slightly** uphill averaging 10:43/mile. It was easier going uphill than down because my quads are tired from Saturday's run. I rested 3 minutes. I walked 1 mile up a steep hill in 17:15.

Tues Oct 23, 2018 **2 miles**

I ran 2 miles on a hilly course. Splits 10:33, 10:38

**Using heart rate (HR) to evaluate level of fitness.
(In my case I call this a “142 beats per minute test”).**

A runner's level of fitness varies with time. I use my heart rate to help evaluate my level of fitness. Lately while running on a treadmill and wearing a heart rate monitor, I do the following.

- 1. Warm up with a mile at about 9:00 – 9:30/mile pace and rest a few minutes.**
- 2. Start running at about 8:35/mile pace and then adjust pace so that HR is $HR_0 = 142 \pm 1$ bpm.**
- 3. Use a watch to record mile splits and stop running when the split exceeds $T_{max} = 8:45$**
- 4. The more miles I am able to run without reaching 8:45/mile, the better my fitness.**

If another runner wants to perform the test mentioned above they will need to establish values for HR_0 and T_{max} in the following way.

- 1. On a treadmill, the runner should warm up, rest a few minutes and then run at a pace near their average half marathon pace (this pace can be estimated). Their HR after running a mile is HR_0 .**
- 2. Next continue running but now adjust pace up and down in order to keep HR near HR_0 . Record mile splits on a watch. The split for the 3rd mile is T_{max} .**

Continued

Notes: During subsequent tests, if more miles are run before the last mile split reaches Tmax or the mile splits are less than previously, then the runner's fitness has presumably improved. Also, the same values of HR0 and Tmax should always be used unless the level of fitness changes a great deal.

Wed Dec 12, 2018 **5 miles**

I performed a 142 bpm test on a Wise Center treadmill.

Warmup: 1 mile in 9:27 and rested 6 minutes.

Run: 4 miles continually adjusting pace so that my HR stayed near HR0=142 bpm.

Mile Splits: 8:39, 8:38, 8:44, 8:46

I stopped running after 4 miles because the fourth mile split was greater than Tmax=8:45.

Thur Dec 13, 2018 **6.5 miles**

Warmup: ½ mile to Wise Center and rested a few minutes

On a treadmill I ran 2 miles at various paces some as fast as 7:41/mile and rested 8:00.

2 mile splits: 9:00, 8:26

Run: ¼ mile lead into a 3 mile run in 23:35 or 7:51.7/mile

I ran the first 2.5 miles at 7:54/mile pace and then faster for the last ½ mile.

Pulse at the end of each mile: 153, 156, 158

I ran on a YMCA treadmill.

Warmup: 2 miles, splits: 8:58, 8:26, and a 4:00 rest

Run: 2 x ¼ mile and 1 x ½ mile with ¼ mile jogs before each run and a ½ mile jog at the end

¼ mile times: 2:00, 2:00 and ½ mile time: 3:50, The jogs were at about 12:00/mile pace

Mon Dec 24, 2018 **5.5 miles**

I ran 5 miles on a YMCA treadmill.

Splits and pulses at the end of each mile:

8:58 (138), 8:34 (140), 8:30 (142), 8:33 (142), 8:00 (153)

Warm down: rest about 4:00 and ½ mile in about 5:00

Tues Dec 25, 2018 **no running** We flew to Amsterdam

Wed Dec 26, 2018 **2 miles** walking and running in Amsterdam at various paces

Thurs Dec 27, 2018 **5.25 miles**

Warmup: ½ mile to the Sportcentrum VU and a few minute rest

Run: 4 miles on a treadmill going faster as I ran, splits: 8:55, 8:45, 8:28, 7:45

Pulse at the end of the 4 mile run: 157 bpm

Warm down: ¼ mile in about 2:30 on treadmill, rest a few minutes and ½ mile jog outside

Fri Dec 28, 2018 **1.5 miles** walking and running in Amsterdam at various paces

Miles in the last week: 22.75

Sat Dec 29, 2018 **5.7 miles**

Warmup: 0.5 miles to the Sportcentrum VU and rest a few minutes

1.5 miles on a treadmill, splits 8:58, 4:17 and rest about 5:00

Run: 0.1 mile lead into a 3.1 mile run, time for 3.1 miles: 23:48 or 7:40.6/mile

Splits: 7:54, 7:44, 7:30, 0:40 Pulse at the end of 3.1 miles: **164 bpm**

Warm down: 0.1 mile on treadmill, rest a few minutes and 0.5 mile outside

The six weeks of fast running including interval training and the last easy week has had a definite effect. Today my heart rate was able to reach 164 bpm which is considerably higher than it has been recently. Also, I ran much more easily than I have in a long time.

Sun Dec 30, 2018 **5.65 miles**

Warmup: 1 mile jog on roads and 1 mile on a Sportcentrum treadmill in 8:50, rest about 4:00

Run: After a 0.15 mile lead in, I did a 3 mile 142 bpm test.

Splits and pulses at the end of each mile: 8:14 (142), 8:24 (142), 8:21 (142)

Compare splits to those on Dec 19, 2018. On average they are slightly lower today.

Mon Dec 31, 2018 **no running - I ran 1596 miles in 2018**

Tues Jan 1, 2018 **4.5 miles**

Warmup: ¼ mile

Run: 4 miles on bike paths, Time: 35:26 (8:51/mile), Splits: 8:52, 8:23, 9:05, 9:06

Warm down: ¼ mile

Wed Jan 2, 2019 **6 miles**

Warmup: ½ mile to the Sportcentrum VU and rested a few minutes, 1 mile on a treadmill at various paces in 8:47 including some as fast as 7:47/mile, rested a few minutes

Run: 3 x 1 mile with a ¼ mile jog before each run and a ¼ mile jog at the end

1 mile times and pulses at the end of each mile:

7:58 (137 bpm), 7:43 (144 bpm), 7:20 (154 bpm)

Warm down: ½ mile outside

Fri Jan 4, 2018 **4 miles**

Warmup: ½ mi to the Sportcentrum VU, rested a few minutes, 1 mile on treadmill in 8:44 and rested about 3:00

Run: ¼ mile lead into a 2 mile run, Time 15:17, Splits: 7:50, 7:27

My pulse stayed at 161 or 162 for the whole second mile.

Warm down: ½ mile jog outside

Workouts lately seem easy. I want to check the calibration of the treadmill.

I assumed the treadmill belt length to be 3.32 meters as found online, and set the treadmill for 12.5 km/hour. At this setting it made 36 cycles in 34.1 seconds. Therefore one cycle took $34.1/36 = 0.947$ seconds. So the speed of the treadmill at this setting is $3.32/0.947 = 3.506$ m/s. Converting this speed to km/hr we have: $(3.506 \text{ m/s}) \cdot (.001 \text{ km/m}) \cdot (3600 \text{ s/hr}) = 12.6 \text{ km/hr}$ (this is very close to the treadmill setting. Therefore it is calibrated correctly)

25.85 miles in the last week

Sat Jan 5, 2019 **4.25 miles**

Warmup: ½ mile to the Sportcentrum VU, 1 mile on a treadmill in 8:45, rest about 3:00

Run: 0.05 mile lead into a 2 mile 142 bpm test,
mile times and pulses at the end of each mile: 8:11 (142), 8:24 (142)

Compare test to one on Dec 30

Warm down: 0.2 mile on treadmill and ½ mile outside

Sun Jan 6, 2019 **no running**

Mon Jan 7, 2019 **5.1 miles**

Warmup: ½ mile on a bike path and 0.1 mile on a treadmill

Run: 4 miles on a Sportcentrum treadmill,
Time: Splits and pulses: 8:55 (137 bpm), 8:27 (143 bpm), 8:32 (142 bpm), 7:34 (164 bpm)
I ended the last mile a good deal under 7:00/mile pace and my pulse rose to 164 bpm.

Warm down: ½ mile on a bike path

Tues Jan 8, 2019 **3 miles**

I ran 1 mile and walked 2 miles on bike and walking paths in Amsterdam.

Wed Jan 9, 2019 **5.15 miles**

Warmup: ½ miles to the Sportcentrum VU, rest about 5:00 and a 0.1 mile lead into a 1 mile on a treadmill, time for 1 mile: 8:50, about a 3 minute rest

Run: 0.1 mile lead into a 4 mile 142 bpm test,
mile times and pulses at the end of each mile: 8:06 (143), 8:16 (141), 8:23 (142), 8:30 (142)
This is the best recent result for a 142 bpm test. Compare today's splits to ones on Dec 12

Warm down: ½ mile outside

Thur Jan 10, 2019 **3 miles**

I ran 1 mile and walked 2 miles on bike and walking paths in Amsterdam.

Fri Jan 11, 2019 **9.15 miles**

Warm up: ½ mile to the Sportcentrum VU, and rest a few minutes,
a 0.1 mile lead into 1 mile on a treadmill, time for mile 8:33, a 3 minute rest

Run: On a treadmill, (¼ mile jogs before each run took about 3:00)

3 x ½ mile with a ¼ mile jog before each run, Average time of 3 runs: 4:00

3 x ½ mile with a ¼ mile jog before each run, Average time of 3 runs: 3:55

1 x 2 mile with a ¼ mile jog before the 2 mile run, Mile splits for the 2 mile: 7:47, 7:26

Pulses at the end of each run 142, 142, 143, 147, 149, 151, 162,

Times for the ¼ mile jogs before each run about 3 minutes.

Warm down: ½ mile in about 6 minutes

Note: I felt much better than for the similar workout on Dec 9, 2018, probably because my heart is now able to beat at a higher rate as I have been training to have it do.

29.65 miles in the last week

25.75 miles in the last week

Sat Jan 19, 2019 **3.9 miles**

Warmup: ½ mile to the Sportcentrum VU and rest a few minutes

1.5 miles on a treadmill averaging about 8:45/mile and rest about 4 minutes

Run: 0.15 mile lead into a 1 mile run in 7:13, ¼ mile splits: 1:50, 1:50, 1:48, 1:45

I ran the last 0.2 miles under 7:00/mile pace. Pulse at the end of run: 158 bpm

Warmdown: rest a few minutes and jog ¾ mile outside

Sun Jan 20, 2019 **no running**

We flew from Amsterdam to Pittsburgh.

Mon Jan 21, 2019 **no running**

We flew from Pittsburgh to Palm Springs California.

Tues Jan 22, 2019 **4.5 miles**

I ran on a ½ mile road loop in Palm Springs.

Warmup: ¼ mile run and rest a few minutes

Run: 5 x ½ mile with a four minute rest after each run

Times for the ½ mile runs: 4:40, 4:07, 4:00, 4:04, 3:43

Warm down: 1.75 mile jog

Wed Jan 23, 2019 **6 miles**

Warmup: 3 mile jog on roads in Palm Springs and rest about 8 minutes

This seemed to be a good warm up even though it did not include any fast running.

Run: 2 miles on the same ½ mile loop as yesterday Time: 15:57 or 7:59/mile

½ mile splits: 4:11, 4:05, 4:00, 3:41

Warm down: 1 mile in about 11:00

Thur Jan 24, 2019 **3.5 miles**

I ran on the same ½ mile loop that I have been using.

Warmup: I walked and ran 2 miles averaging 11:20/mile. At the beginning of each ½ mile I walked about 0.1 miles. I rested about 4:00

I walked about 75 yards during each half mile.

Wed Feb 6, 2019 **5.05 miles**

Warmup: 2 miles on a Wise Center treadmill in 18:01, Final pulse:135, rest 3:00

Run: 7 x 0.15 miles with a ¼ mile jog before each run, each 0.15 mile run took 63 seconds which corresponds to 6:59/mile pace. These runs felt relatively easy.

Pulse after first run:150, pulse after seventh one: 157

The ¼ mile jogs took about 3:00

Warm down: ¼ mile jog

Thur Feb 7, 2019 **5 miles**

I ran and walked 5 miles on slightly hilly roads and averaged 11:11/mile.

I walked about 0.05 miles during each half mile.

Fri Feb 8, 2019 **no running**

In the last week 26.65 miles

Sat Feb 9, 2019 **4.2 miles**

Warmup: I ran 2 miles on a Wise Center treadmill. Splits: 8:59, 8:41, 9 minutes rest

Run: 0.2 mile lead into a 1 mile run. Time for the mile: 7:36

I started running at 7:47/mile pace and ended at 6:40/mile pace. Ending pulse: 160

Warm down: 1 mile in 9:51 going faster as I ran

Sun Feb 10, 2019 **no running**

I injured my right knee slightly picking up something while in an awkward position.

Mon Feb 11, 2019 **4 miles**

My right knee is still somewhat sore.

Warmup: I massaged my right leg

Workout: I did a 200 calorie ride on a Wise Center recumbent exercise bike set at level 12 with my weight entered as 128 pounds. Then I rested a few minutes, ran and walked 1.25 miles on the indoor track, rested a few minutes, and did a 75 calorie ride. **I take a 100 calorie ride to be equivalent to a mile run. Riding the bike may help my knee.**

Tues Feb 12, 2019 **4 miles**

When massaging my right leg, I found that the component of the quadriceps called the vastus medialis above my right knee was very tight. I also read that this could cause the knee pain that I have been experiencing. I continued to massage that particular muscle, and felt more and more discomfort in it. From similar experiences with other muscles I know that this kind of massage is necessary to loosen the muscle.

Run: On a Wise Center treadmill I cautiously ran 4 miles starting at 10:00/mile and ending at 9:00/mile and averaging about 9:30/mile. My knee felt okay.

Wed Feb 13, 2019 **4.25 miles**

My right knee continues to improve. I am still massaging the vastus medialis muscle.

Warmup: 1 mile on a Wise Center treadmill in about 9:00 and rested 4 minutes

Run: 4 x ½ mile in 4:13.5 with a ¼ mile jog before each run. Jogs were in about 3:00.

Warm down: ¼ mile jog

Thur Feb 14, 2019 **no running**

Fri Feb 15, 2019 **5.3 miles**

Warmup: 1 mile jog on a hilly road.

Run: 4 x ½ mile uphill (6% grade) with ½ mile down the same hill after each run

Uphill times and final pulses: 5:37 (146), 5:26 (151), 5:02 (161), 4:52 (164)

Average uphill pace: 10:28/mile **Average down hill pace:** 9:50/mile

Warm down: 0.3 mile jog

In the last week: 21.75 miles

Sat Feb 16, 2019 **5.25 miles**

Warmup: ½ mile to the Wise Center and rest a few minutes

1.5 miles on a treadmill averaging 9:00/mile

Run: 5 x ½ mile on a treadmill with ¼ mile jogs before each run

Times and pulses at the end of each run:

4:00 (147), 3:56.8 (153), 3:53.8 (158), 3:50.8 (160), 3:45 (163)

The ¼ mile jogs took about 3 minutes. **Warm down:** ¼ mile jog

Sun Feb 17, 2019 **5.05 miles**

Warmup: ½ mile to the Wise Center and rest a few minutes

Run on the indoor track: 2 miles, Splits: 9:36, 9:07 and rest 6 minutes

Run on a treadmill: a 0.05 jog lead into a 2 mile run, Splits: 8:49, 7:55

I started the second mile running at 8:08/mile and ended at 7:24/mile.

My pulse rose to 157 bpm. **Warm down:** ½ mile at about 10:00/mile

Mon Feb 18, 2019 **no running**

Tues Feb 19, 2019 **5.9 miles** on a Wise Center treadmill.

Warmup: 1.5 miles averaging 9:00/mile and a 4 minute rest

Run: I ran a 4 mile 142 bpm test. (See Tues Dec 11, 2018)

After a 0.1mile lead in, I ran 4 miles while keeping my heart rate at 142 bpm.

Mile splits and pulses at the end of each mile:

8:15 (142), 8:30 (142), 8:33 (142), 8:38 (143)

Today my splits were slightly slower than in Amsterdam on Dec 30 and Jan 9, Jan 15.

Also ½ mile pulses 3 days ago were higher than in Amsterdam on Dec 18,

Treadmill calibrations were different or the fast runs I have been doing has tired my some.

Wed Feb 20, 2019 **4.85 miles**

Run: On a Wise Center treadmill: 4 mile run, Average pace: 8:32/mi

Splits: 8:56, 8:44, 8:30, (4:09+3:49) = 7:58

Pace at end of run 7:14/mi, Pulse at end of 4 mile run 158 bpm

Warm down: ½ mile on the treadmill in about 5 min and 0.35 mile jog outside

Thur Feb 21, 2019 **4.25 miles**, I ran 4 miles with Tiffany Hrach on the Wise Center indoor track including 4 x ½ mile with a ¼ mile jog after each run. Times for runs: 4:29, 4:33, 4:23, 4:23, Times for jogs about 3:00. We walked ¼ mile to warm down.

Fri Feb 22, 2019 **5.1 miles** on a Wise Center Treadmill (Compare to Feb 6, 2019)

Warmup: 1.5 miles in 13:29 Final pulse:128, rest 4:00

Run: 7 x 0.15 miles and 1 x 0.3 miles with a ¼ mile jog before each run, each 0.15 mile run took 62 seconds and the 0.3 miles took 2:04, i.e. all at 6:54/mile pace.

Pulse after first run:147, pulse after seventh run: 152, pulse after 0.3 mile run: 154 bpm

The ¼ mile jogs took about 3:00 **Warm down:** ¼ miles in about 3:00.

In the last week: 30.4 miles

Sat Feb 23, 2019 **7.25 miles**

I ran on a treadmill in the Wise Center.

Run: A 0.1 mile lead into a 5.1 mile run, Time for 5.1 miles: 45:33 or 8:18/mile

Splits for 5.1 miles: 8:59, 8:40, 8:20, 7:58, 7:40, 0:45

Last 5K in 24:43 or 7:58/mile, Final pulse: 160 bpm

Warm down: 0.3 miles on the treadmill, 1.25 miles on the indoor track with Tiffany and Veronica and 0.5 miles home

Sun Feb 24, 2019 **2.5 miles**

I did a 100 calorie ride on a Wise Center recumbent bike on level 12. Time: 8:51

I went fast in the beginning and at the end and could feel the ride took a good deal out of my legs. I take the ride as equivalent to 1 mile of running. After a few minutes rest I ran 1.25 miles on the indoor track at about 10:00/mile and then walked ¼ mile.

Mon Feb 25, 2019 **4.5 miles**

Run: 4 miles on a Wise Center treadmill going faster as I ran. Average pace 8:20/mile

Warmdown: ½ mile in about 5 minutes

Tues Feb 26, 2019 **4 miles**

Run/walk: I walked about 0.15 miles at the beginning of each mile and covered 4 miles at close to 11:00/mile. Walking pace: 15:00/mile, Running pace: 10:20/mile

Wed Feb 27, 2019 **6.1 miles** on a Wise Center Treadmill

Warmup: 1.6 miles including 1.5 miles at 8:50/mile, rest 4:00

Run: 8 x 0.2 miles with a 0.3 mile jog before each run, each 0.2 mile run took 83 s, or 6:54/mile pace. Pulse after first run: 149, pulse after 8th run: 156, The 0.3 mile jogs were at about 12:00/mile pace

Warm down: ½ mile in about 5:00.

Thur Feb 28, 2019 **4.75 miles**, I ran 4.5 miles with Tiffany Hrach on the Wise Center indoor track including 5 x ½ mile with a ¼ mile jog after each run. Times for runs: 4:30, 4:28, 4:31, 4:28, 4:22, Times for jogs about 3:00. We walked ¼ mile to warm down.

On a recumbent stationary bike: a 100 calorie ride on level 12 in 9:43

Sun March 3, 2019 **5.5 miles**

Run: On a Wise Center treadmill 5 miles in 44:18 or 8:52/mile,

Splits: 9:29, 9:01, 8:55, 8:30, 8:23, Final pulse: 148 bpm

My pulse was unexpectedly high during the run and I felt more tired than usual. Also I think I may be starting a cold.

Warmdown: $\frac{1}{2}$ mile in about 5:00

Mon March 4, 2019 **no running**, I have a cold with chest congestion.

Tues March 5, 2019 **no running**, My cold is somewhat better.

Wed March 6, 2019 **no running**,

Thur March 7, 2019 **4.1 miles**

On the Wise Center indoor track: 1 mile in $(4:55 + 4:35) = 9:30$, rest a few minutes

$\frac{1}{4}$ mile in 1:59 and jog $\frac{1}{4}$ mile.

On a treadmill: 0.1 mile lead into a 2 mile run, Splits 8:55, 8:19

$\frac{1}{2}$ mile in about 5:00

Fri March 8, 2019 **4.5 miles**

I was going to run 5 miles as I did last Sunday but I stopped at 4 miles because I felt noticeably more tired than I did last Sunday. The cold I have had since then has taken some energy out of me.

Run: On a Wise Center treadmill 4 miles in 35:48 or 8:57/mile,

Splits: 9:31, 8:59, 8:54, 8:22 Final pulse: 147 bpm

My times were slower today than for previous 142 bpm tests.

Warmdown: 0.4 miles treadmill warm down in 4:00 and ½ mile jog home

On Feb 12 I found a component of my right quadriceps was very tight and most likely causing the slight discomfort in my right knee. Over a week or so, I used massage to deal with that tightness and my knee got better. Since then, my hard workouts have caused the slight discomfort to returned without the tightness in my leg muscle. In the past when I have had similar problems I found that riding a bike helps. I will use a recumbant stationary bike for a few days to see what happens.

Tues March 12, 2019 **3 miles**

I am going to run the Buffalo Runners 6 Hour Distance Classic tomorrow.

Sun April 28, 2019 **32.5 miles**

I ran the Buffalo Runners 6 Hour Distance Classic on a cool, breezy day. The event was held on a 3.242 mile course which I ran 10 times in 6:07:01 with an average pace of 11:20/mile. I averaged about 10:50/mile for the first half of the run and 11:50 /mile for the second half. My distance at 6 hours was 31.77 miles, an age group course record. I picked up my pace for the last lap. I enjoyed the run and the friendly runners, race officials and volunteers. Mary Jane gave me great support as usual. On the next page is the fueling schedule Mary Jane used to supply me with what I needed.

Mon April 29, 2019 **no running**

Tues April 30, 2019 **3.5 miles**

I ran 3 miles slowly on the Allegheny College indoor track and then walked and ran ½ mile home.

Wed May 1, 2019 **4 miles**

Without eating breakfast I ran 4 miles at fat burning pace on hilly roads and grass.

Thur May 2, 2019 **4.5 miles**

I ran 1 mile and had to walk for ½ mile because my right calf started to cramp. After massaging calf I ran 3 miles. Running was at fat burning pace.

Fri May 3, 2019 **4.5 miles**

I again ran at a fat burning pace and actually got a little dizzy at the end.

In the past week: 49 miles

6 hour run Buffalo NY April 28, 2019

The run is on a 3.24 mile course on Amherst Bike Path

Lap	Time(Watch)	Time(Clock)			
0	0:00	8:00 AM			
1	0:36	8:36	Salt Stick	Gatorade	
2	1:12	9:12		Gatorade	gel
3	1:48	9:48	Salt Stick	Gatorade	
4	2:24	10:24		Gatorade	gel
5	3:00	11:00	Salt Stick	Gatorade	
6	3:36	11:36		Gatorade	gel
7	4:12	12:12	Salt Stick	Gatorade	gel
8	4:48	12:48		Coke	
9	5:24	1:24	Salt Stick	Coke	
10	6:00	2:00			

I will carry a few additional gels.

Each bottle of Gatorade and Coke will contain about 13 ounces.

The total ounces will be $13 \times 9 = 117$ and ounces per mile = $117/32.4 = 3.6/\text{mile}$ On a cool day this is good for me. Gatorade has 6.67 calories/ounce, Coke 12.5 calories/ounce.

Total calories consumed during the 5.4 hours after the first lap will be:

For each of 7 Gatorade bottles:

$$13 \text{ ounces} \times 6.67 \text{ cal/ounces} = 87 \text{ cal/bottle}$$

For all 7 bottles Gatorade: $7 \times 87 = 609$ calories

For each of 2 Coke bottles:

$$13 \text{ ounces} \times 12.5 \text{ cal/ounce} = 162 \text{ cal/bottle}$$

For 2 bottles of Coke: $2 \times 162 = 324$ calories

For 4 gels: 400 calories

Total = $609 + 324 + 400 = 1333$ after the first lap i.e. during 5.4 hours.

Calories/hour = $1333/5.4 = 247$ cal This is how many calories the body can absorb per hour.

Sat May 4, 2019 **5.5 miles**

On a stationary recumbent bike set at level 12: I did a 500 calorie ride in 49:30. Final heart rate 117 bpm, Average heart rate about 108 bpm.

Warm down: ½ mile jog and walk home uphill.

Sun May 5, 2019 **no running**

On May 2, my right calf cramped while running. Since then the calf has been sore. I have been massaging it every day and this seems to help.

Mon May 6, 2019 **6 miles**

Run: I ran 5 miles averaging 10:00/mile. The first 4 miles were on hilly roads and the last mile was on the Allegheny College track. My right calf was still a little sore.

Warm down: I jogged 1 mile home.

Tues May 7, 2019 **6 miles**

Run: I ran the same 5 mile course that I did yesterday and averaged 9:33/mile. My calf was somewhat better.

Warm down: I jogged 1 mile home.

Splits for the 5 mile run:

Yesterday: 10:45 (up hill), 9:50, 9:23, 9:51, 10:10

Today: 10:17 (up hill), 9:39, 9:24, 9:32, 8:53

Wed May 8, 2019 **5.5 miles**

Ride: I did a 500 calorie ride on a stationary recumbent bike on level 12.

100 calorie splits: 11:10, 11:02, 11:00, 10:20, 9:40.

The pulse at the end was 115 bpm

I count this ride as equivalent to a 5 mile run.

Warm down: I walked and jogged ½ mile home.

Thurs May 9, 2019 **no running**

Fri May 10, 2019, **3 miles**

I was going to run 5 miles on a treadmill but had to stop after 3 miles because my left calf cramped again as it did last week and this left my leg really sore. After an hour or so I could not stand on my toes because it made my calf hurt so much. We went to see Dr Dan Young a chiropractor in Erie. He has helped us with similar situations in the past. He massaged my calf and IT band for about 15 minutes. During this treatment I had a great deal of discomfort but I knew it would help a lot. And it did. Right after the treatment I had no problem standing on my toes. Dr Young showed Mary Jane how to massage my leg.

In the past week: 26.5 miles

Sat May 11, 2019 **5 miles**

Before running Mary Jane massaged my sore calf and again I had a great deal of discomfort. Because of this I did not think I would be able to run much at all. When I went out the door to run I was thinking I would run slowly in the beginning and then walk and run a couple of miles after that. After a slow mile mainly uphill I had no problem running, picked up the pace and ran a total of 5 miles averaging 10:40/mile on hilly roads. It was an enjoyable run with no problems. I think if Mary Jane continues to massage my leg everyday before I run, I should recover quickly.
